Projects

Airbnb Management System, Database Project

- On-demand lodging and room rental service
- Software solutions to connect the host and the guest and get a share of the transaction
- Complete end-to-end web application.

Snake Ladder Game, Programming Fundamentals

This university project was created in my first semester in which we implemented basic C++ concepts of programming.

Profile

I received my Matriculation degree from Beaconhouse School System in 2017 and completed my Intermediate from Forman Christian College in 2019. I attained A+ grade in both of them. As mentioned above, I am studying CS from FAST-NU. I have deep interest in back-end developing. Although I have worked only in C# in .NET framework but have great aspirations to challenge myself on different platforms like Node.js, Flutter etc.

Languages

Urdu • English

Hobbies

Movies/TV shows

Book Reading (*I read English and Urdu books equally. I prefer to read such English books that helps me in gaining my general knowledge like biographies etc.*)

Table Tennis

Cricket

Football
