- Microsoft Office

PROJECTS

Space Invaders
2019
This game was a copy of the old game known as space invaders that were implemented using graphics provided by the university.

Path Finding Simulator
It was a path-finding simulator that implemented both Dijkstra's algorithm and A* to provide a comparison on how both worked on the same map.

Tic Tac Toe in Assembly
It was a simple game of tic tac toe that was implemented 16-bit assembly for intel 8088 processer.

Nadra Clone
It was a Nadra clone that was implemented to show understanding of database and web development skills. Everything was made from scratch using HTML and CSS for the frontend and C# and MSSQL for the backend.

PROFESSIONAL EXPERIENCE

Freelancing, *WordPress Developer*
I have been working on wordpress websites for 1 year. I take orders through word of mouth and usually get wholesale websites. http://hubstockz.com/ Can be seen for reference for my recent works.
